

40W Solar panel
weight: 8.3 kg

Approximate weight of All in one unit,
Excluding batteries/TCX Download: 9.6kg
Weight of batteries: 10.2kg(2.04kg/unit)
Weight of TCX Download: 0.3kg
Please note, batteries and TCX Download are to be
inserted after installation.

Please note, this product
is shown on a 89mm straight
post

Solagen recommends installing the SAS300 -
Mobile 'All in one' XXmph with Slow Down
2.35m high to optimise radar function.

Important note, post will require a 25mm diameter
hole drilled into it, at the time of 1st installation.
This will allow the solar panel to connect to the
'All in one' product with no exposed cabling.

Please note, dimensions may vary slightly.
